FS Investment Corporation

QUARTER ENDED SEPTEMBER 30, 2015 FINANCIAL INFORMATION

Important Disclosure Notice

This presentation may contain certain forward-looking statements, including statements with regard to the future performance of FS Investment Corporation (FSIC, the Company, we or us). Words such as “believes,” “expects,” “projects” and “future” or similar expressions are intended to identify forward-looking statements. These forward-looking statements are subject to the inherent uncertainties in predicting future results and conditions. Certain factors could cause actual results to differ materially from those projected in these forward-looking statements. Factors that could cause actual results to differ materially include changes in the economy, risks associated with possible disruption in FSIC's operations or the economy due generally to terrorism or natural disasters, future changes in laws or regulations and conditions in FSIC's operating area, and the price at which shares of common stock may trade on the New York Stock Exchange LLC (NYSE). Certain of these factors are enumerated in the filings FSIC makes with the Securities and Exchange Commission (SEC). FSIC undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

This presentation contains summaries of certain financial and statistical information about FSIC. The information contained in this presentation is summary information that is intended to be considered in the context of FSIC's SEC filings and other public announcements that FSIC may make, by press release or otherwise, from time to time. FSIC undertakes no duty or obligation to update or revise the information contained in this presentation. In addition, information related to past performance, while helpful as an evaluative tool, is not necessarily indicative of future results, the achievement of which cannot be assured. Investors should not view the past performance of FSIC, or information about the market, as indicative of FSIC's future results.

This presentation contains certain financial measures that have not been prepared in accordance with U.S. generally accepted accounting principles (GAAP). FSIC uses these non-GAAP financial measures internally in analyzing financial results and believes that the presentation of these non-GAAP financial measures is useful to investors as an additional tool to evaluate ongoing results and trends and in comparing FSIC's financial results with other business development companies.

Non-GAAP financial measures are not meant to be considered in isolation or as a substitute for comparable GAAP financial measures, and should be read only in conjunction with FSIC's consolidated financial statements prepared in accordance with GAAP. A reconciliation of non-GAAP financial measures to the most directly comparable GAAP measures has been provided in the table on page 15 included in this presentation and investors are encouraged to review the reconciliation in the table and the related footnotes.

Dollar amounts herein (except for per share amounts) are presented in thousands. Certain figures in this presentation have been rounded.

Endnotes

- 1) The per share data was derived by using the weighted average shares of our common stock outstanding during the applicable period. Per share numbers may not sum due to rounding.
- 2) Adjusted net investment income is a non-GAAP financial measure. We present adjusted net investment income for all periods as GAAP net investment income excluding (i) the accrual for the capital gains incentive fee for realized and unrealized gains; (ii) excise taxes; and (iii) certain non-recurring operating expenses that are one-time in nature and are not representative of ongoing operating expenses incurred during FSIC's normal course of business (referred to herein as one-time expenses). We use this non-GAAP financial measure internally in analyzing financial results and believe that the use of this non-GAAP financial measure is useful to investors as an additional tool to evaluate ongoing results and trends and in comparing our financial results with other business development companies. The presentation of this additional information is not meant to be considered in isolation or as a substitute for financial results prepared in accordance with GAAP. Reconciliations of GAAP net investment income to adjusted net investment income can be found on page 15 of this presentation.
- 3) The per share data for distributions reflects the actual amount of distributions declared per share of our common stock during the applicable period.
- 4) We record interest income on an accrual basis. Generally, investments are placed on non-accrual when the collection of future interest and principal payments is uncertain.
- 5) We have identified and intend to focus on the following investment categories, which we believe will allow us to generate an attractive total return with an acceptable level of risk.

Direct Originations: We intend to leverage our relationship with GSO / Blackstone Debt Funds Management LLC and its global sourcing and origination platform to directly source investment opportunities. Such investments are originated or structured for us or made by us and are not generally available to the broader market. These investments may include both debt and equity components, although we do not generally make equity investments independent of having an existing credit relationship. We believe directly originated investments may offer higher returns and more favorable protections than broadly syndicated transactions.

Opportunistic: We intend to seek to capitalize on market price inefficiencies by investing in loans, bonds and other securities where the market price of such investment reflects a lower value than deemed warranted by our fundamental analysis. We believe that market price inefficiencies may occur due to, among other things, general dislocations in the markets, a misunderstanding by the market of a particular company or an industry being out of favor with the broader investment community. We seek to allocate capital to these securities that have been misunderstood or mispriced by the market and where we believe there is an opportunity to earn an attractive return on our investment. Such opportunities may include event driven investments, anchor orders and collateralized securities.

Broadly Syndicated/Other: Although our primary focus is to invest in directly originated transactions and opportunistic investments, in certain circumstances we will also invest in the broadly syndicated loan and high yield markets. Broadly syndicated loans and bonds are generally more liquid than our directly originated investments and provide a complement to our less liquid strategies. In addition, and because we typically receive more attractive financing terms on these positions than we do on our less liquid assets, we are able to leverage the broadly syndicated portion of our portfolio in such a way that maximizes the levered return potential of our portfolio.

For additional details on these investment categories, see FSIC's quarterly report on Form 10-Q for the quarter ended September 30, 2015, under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations—Overview".

Endnotes (Cont'd)

- 6) Gross portfolio yield represents the expected annualized yield to be generated on FSIC's investment portfolio based on the composition of the portfolio as of the applicable date. FSIC's estimated gross portfolio yield may be higher than an investor's yield on an investment in shares of FSIC's common stock because it does not reflect sales commissions or charges that may be incurred in connection with the purchase or sale of such shares, or operating expenses that may be incurred by FSIC. FSIC's estimated gross portfolio yield does not represent an actual investment return to stockholders, is subject to change and, in the future, may be greater or less than the rates set forth herein.
- 7) During the quarter ended September 30, 2015, FSIC reversed \$13,811 of capital gains incentive fees based on unrealized depreciation in its portfolio during such period. During the nine months ended September 30, 2015, FSIC reversed \$18,418 of capital gains incentive fees based on unrealized depreciation in its portfolio during such period. FSIC paid no capital gains incentive fees during the nine months ended September 30, 2015.
- 8) The debt/equity ratio is the ratio of total debt outstanding to stockholders' equity as of the applicable date.
- 9) The timing and amount of any future distributions on FSIC's shares of common stock are subject to applicable legal restrictions and the sole discretion of FSIC's board of directors.
- 10) In addition to various risk management and monitoring tools, FB Advisor uses an investment rating system to characterize and monitor the expected level of returns on each investment in FSIC's portfolio. For additional details, see FSIC's quarterly report on Form 10-Q for the quarter ended September 30, 2015, under the heading "Management's Discussion and Analysis of Financial Condition and Results of Operations—Portfolio Asset Quality."
